DETAILED ACTION

1. Claims 1-29 were examined.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission filed on 04/26/2007 has been entered.

REASONS FOR ALLOWANCE

3. This office action is in responsive to the paper filed on 04/26/2007.

4. The following is an examiner's statement of reasons for allowance:

The claimed invention is a method for calculating production quantities.

While the prior art of Nulman et al., Bode et al., Grewal et al., Campbell et al, Hallas et al, Robinson et al, and Domaschke et al, (see PTO-892) teaches predicting a production quantity while using a computer program product (i.e. model or simulation using a computer), none of the references either alone or in combination expressly disclose or suggest "receiving a quantity of time during which the second set of at least one tool is not able control the first set of at least one tool; and calculating the at least one production quantity affected by the first set quantity of time received."

5. Claims 1-29 are deemed allowable.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
